

U.S. Animal Research Openness Initiative

www.usaro.org

Openness about animal research involves communicating essential information about **why** animal studies remain essential to research that advances science and benefits humans and animals and **how** studies with animals are approved, conducted, and monitored.

The U.S. Animal Research Openness (USARO) Initiative invites your institution to engage in the conversation about openness for research with animals.

Why Join the U.S. Openness Initiative?

Build Trust

Be part of an inclusive community that promotes support for science

Establish strong relationships with the public

Inform policymakers and the media

Support Science

Showcase your institution's research

Show the connection between animal research and patient health

Counter Claims

Highlight the standards of care for animals in research

Counter misinformation about animal research and alternatives

Take a Step Towards Greater Openness

Provide us with a contact at your institution to learn more, stay informed and join efforts of the USARO Initiative.

You're
Invited!

Have questions or want help in expanding animal research openness at your institution?
